

**PR-Nr. 19 – 13. December 2017**

### **Macnica Europe GmbH and H&D Wireless start co-operation on IoT Solutions and Connectivity Modules**

**Kista, Sweden and Ingolstadt, Germany, December 7, 2017** – Macnica Europe GmbH and H&D Wireless AB have signed a collaboration agreement for HDW wireless modules for co-operation in the European IoT market.

The full wireless product portfolio of HDW will be offered via Macnica GmbH to the European market with a focus on IoT for Smart Home and Enterprise such as Industry 4.0 but also other wireless applications such as audio, medical and the COM market. The new wireless module family named Accelerate, are world class in power consumption, size, cost and support both 802.11ac/abgn/BT5/M.2 1216, 802.11abgn/BT4.2, 802.11ac/abgn/BT4.2/NFC.

An extended consulting and support service is offered by both companies. New products, such as the high performing SPB228 Wi-Fi/Bluetooth combi module, are under release right now and will be further promoted during f.ex. Embedded World Congress 2018. The new Accelerate family Evaluations Tools and Boards will be supported by Macnica going forward.

“HDW believe that the IoT market is to explode over the next years and we are happy to now be able to support that together with a leading distributor as Macnica, with the expertise and knowledge in respective areas.”

“With the sales, FAE network and world class logistic centers we target to expand our sales and also penetrate more of Europe’s major industrial companies”, says HDW CEO Pär Bergsten.

Commenting on the signing of their distribution franchise, Andreas Wemmer, Sales Director of Macnica Europe GmbH, stated: "Macnica is watching carefully the technological evolu-

## RELEASES

### **About Macnica, Inc.**

Macnica was established in 1972 as a semiconductor distribution company headquartered in Yokohama, Japan, and has over 65 sales offices worldwide in eastern Asia, Europe and the USA. Total number of employees is over 2,600 and its consolidated revenue for fiscal 2015 was approximately US\$ 4 B. Macnica is famous for having an excellent engineering team of more than 800 application support engineers, IC designers and software developers with strong focus on providing technical support for its customers including custom design services. Macnica is continuing to extend its presence globally by having successful partners in strategic areas in the electronics market.

### **About Macnica Europe GmbH**

Macnica's European headquarter was originally established in the UK in 2006, and moved to Germany in July 2008, to increase efficacy of its service for European customers.

By its acquisition of the Munich based company Scantec Mikroelektronik in 2014 Macnica Europe formed a powerful semiconductor distribution with headquarters in Munich and Ingolstadt and numerous sales offices in Europe offering an attractive and competitive portfolio of highly sophisticated devices.

Macnica provides end to end support from design-in to production through its global service network to its customers, regardless of the final destination of the product shipment to customers' manufacturing locations.
